

Complementary Boxes

Junction or distribution box with cage terminal block.

Din rail mounting

Black opaque lid. The rail, with a clear width of 80mm (100mm for terminal blocks located less than 50mm above the rail), allows the mounting of:

- 18 x 1.5 mm² cage junction blocks (4.2mm width without separation, 5.7mm with separation)
- 18 x 2.5 or 4.0 mm² cage junction blocks (6.2mm width without separation, 7.7mm with separation)
- 9 x 6.0 mm² cage junction blocks (8.0mm width without separation, 9.5mm with separation)
- 7 x 2.5 or 10 mm² cage junction blocks (10.2mm width without separation, 11.7mm with separation)
- 2 x PGM25
- Din rail omega
- 2 M20 x 1.5 rear outlets sealed with M20 x 1.5 caps and gaskets
- 4 wall mounting movable brackets
- 10 red plastic seals

Box with Ultimheat terminal block

Can be used as a junction or distribution box or for customer control system integration.

- Ultimheat terminal block 5 x 6mm² and 5 x 2,5mm² symmetric
- 2 x PGM25
- 2 M20 x 1.5 rear outlets sealed with M20 x 1.5 caps and gaskets
- 4 wall mounting movable brackets
- 10 red plastic seals

Fully wired model: see page 80

Y8T0001S000020J1	Polycarbonate transparent lid
Y8W0001S000020J1	Black lid with transparent polycarbonate window

Single phase junction box, 3 pre-wired outputs

Wiring: power supply Neutral + Phase + Ground on a 6 mm² terminal block, and outlets to 3 heating circuit outlets 1.5 or 2.5 mm².

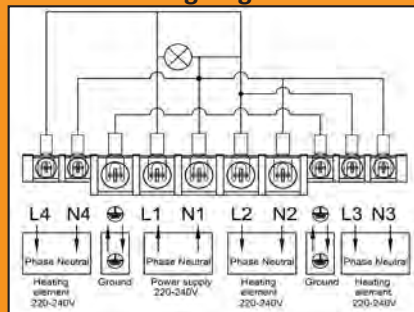

Indicator lights: A power supply red light, with high brightness LED is visible under the transparent lid

The whole wiring is protected against accidental contacts

- 2 x PGM25
- 2 M20 x 1.5 rear outlets sealed with M20 x 1.5 caps and gaskets
- 4 wall mounting movable brackets
- 10 red plastic seals

Complementary Boxes

Box for Ground Fault Circuit Interrupter or Din rail mounting electronic control

Allows mounting of a circuit breaker type Merlin Gerin Multi 9 (UL, CSA, IEC) and equivalent European ranges Vigi C60 or C60 (72mm maximum width = four 18 mm modules), or electronic controllers described in this catalogue

Box basic equipment:

- 2 x PGM25
- Din rail
- Ground Fault Circuit Interrupter front plate
- 2 M20 x 1.5 rear outlets sealed with M20 x 1.5 caps and gaskets
- Ground block with 4 terminals dia. 5 mm
- 4 wall mounting movable brackets
- 10 red plastic seals

Supplied without GFCI or electronic controller

Alarm indicator light with mounting bracket for aluminum or plastic boxes

Snaps into a rib within the housings. For example: allows to indicate overheating of SSRs in aluminum boxes equipped with alarm thermostats closing on temperature rise.

The bracket includes a 3 x 1.5 mm² terminal block.

Reference	Voltage
6YL220000BR	Bracket without light and terminal block
